-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because the disclosure contains two unlike abstracts. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 5-6, "said spring being mounted substantially outboard of said hinge cup portion" cannot be understood. The disclosure does not clearly define "outboard" and figures does not show as such. Note similar errors in claims 8 and 13.

Claim 3 fails to further limit the subject matter of claim 2. "non-linear" is contrary to "substantially linear" of claim 2.

Claim 4 is confusing. From the preamble it is understood "A hinge" is being claimed. However, later in the claim the arm and the cup are said to be "affixed" to the cabinet. It is not clear whether a hinge-cabinet combination is being claimed or a hinge alone is being claimed.

Claim 6 cannot be understood structurally. It is unclear how the invention as claimed enable a selective increase or decrease. Note similar errors in claims 10 and 15.

In claim 13, it cannot be understood what "at least on access hole" is referring to and how the hole is structurally related to the invention.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless —

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-16, as best as understood, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Grass (5,604,956). Note the spring coil (15) shown in fig. 6.

6. Claims 1-16, as best as understood, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Salice (6,289,556). '556 shows an arm 30, and a coil 28.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
